Ben Lomond Topography Print - £20

KILO PAPA STUDIO

My work is deeply connected to and inspired by Scotland, from landmark to landscape. My Mountain Series is a collection of drawings focussed on Scotland's Hills & Munro's, where I look at the natural forms of land contours from ordnance maps and illustrate popular hills in my signature hand drawn style.

Giant Scarf - Eske Esk - £155

FEATHER & HAY TEXTILES

The Giant Scarves have been hand woven for those that love wild landscapes. The designs are inspired by Scotland's Highlands, in particular the eastern side where the Angus Glens skirt the Cairngorm National Park. It is a place of mountains, granite plateaus, heather-clad moors, rivers and lochs.

Each scarf has unique hand blended and spun inlays that thread the wild details into traditional hand woven patterns.

Eske Esk means – spitting rain that precedes a heavy storm in Glen Esk.

Arran landscape bangle - £402

JEN CUNNINGHAM - LANDSCAPE INSPIRED JEWELLERY

The Arran landscape bangle has a special place in my heart. Arran was the view I had growing up as a child. Each bangle is individually handmade by me from 100% recycled sterling silver, the Isle of Arran bangle is a great memento of time spent on this beautiful island on the Clyde.
